Layout & Print Production

Senior Graphic Designer with 15+ years of experience designing brand systems, digital products, and high-impact marketing collateral. Combines deep visual design expertise with 10+ years of front-end development experience, enabling seamless translation of design concepts into production-ready digital solutions. Proven track record of delivering measurable business results, including proposal systems that contributed to over $5M in revenue. Experienced in brand strategy, UI/UX design, print production, and responsive web development, with advanced proficiency in Adobe Creative Suite, Figma, and modern web technologies.

Selected Projects

Findash — Fintech Analytics Dashboard
SOFFRA — Endurance Sports Data Platform
Pinnacle Solutions — Brand Identity System
Flourrish — funding platform for global evironmental projects

Professional Experience

Founder / Frontend Engineer / Designer
Pixlhaus Internet Technologies
Hingham, MA
07/2025 – Present
Design and develop modern digital products and web applications for small-business clients, bridging visual design and front-end engineering.

Key Contributions:

- Designed and implemented UI/UX systems for responsive web applications using Angular, TypeScript, HTML, CSS, and JavaScript
- Built analytics dashboards with custom data visualizations that improved operational insights for clients
- Designed and developed an innovative digital “Hook Chart” platform that modernized workflow for speech-language pathologists platform for speech-language pathologists
- Developed custom CMS platforms enabling streamlined content publishing and scalable site architecture

Founder / Frontend Engineer / Designer
SOFFRA.io
Hingham, MA
06/2022 – Present
Created a global endurance sports platform focused on mapping and analyzing mountain climbs for cyclists and runners.

Key Contributions:

- Designed and built the complete product experience from concept through UI/UX and front-end development
- Structured and processed data for over 8,000 global climb segments
- Integrated Strava APIs and geospatial tools to visualize athletic performance data
- Implemented interactive maps and dynamic charts using Google Maps and Google Charts
- Led architectural planning and coordinated development across a small engineering team

Education

Bachelor of Science - Graphic Design

New England Institute of Art
Brookline
01/2005 – 05/2007

Diploma - Web Development

Art Institute of Pittsburgh
Pittsburgh, PA
01/2013 – 03/2014

Master of Science - Software Development

Boston University
Boston, MA
Current Graduate Student
Starting 03/2026

Frontend Engineer / Designer

OneSky Flight / Tuvoli

Boston, MA
01/2019 – 02/2022
Designed and developed user interfaces for aviation technology platforms serving private aviation clients.

Key Contributions:

- Owned UI architecture and CSS systems across multiple aviation technology products
- Developed Angular-based features using mobile-first design principles
- Built reusable component libraries that accelerated development across teams
- Collaborated closely with product managers, designers, and engineers to deliver polished user experiences

Frontend Developer / UI Designer

Homesite Insurance

Boston, MA
10/2014 – 01/2019
Developed enterprise user interfaces for insurance platforms within Agile engineering teams.

Key Contributions:

- Built scalable UI systems supporting large-scale enterprise insurance applications
- Maintained brand and interface consistency across multiple internal products
- Improved reliability through cross-browser validation and front-end debugging

Senior Graphic Designer

J. Calnan and Associates

Quincy, MA
03/2012 – 03/2013
Led design initiatives for marketing and proposal development.

Key Contributions:

- Produced high-impact proposal packages that contributed to generating $5M+ in revenue
- Oversaw creative deliverables and mentored junior design staff
- Managed marketing design for corporate communications and events

Senior Graphic Designer

Axon Communications

Braintree, MA
10/2007 – 03/2012
Founding designer at an early-stage marketing firm responsible for full creative production.

Key Contributions:

- Built the company's first in-house creative department and production workflows
- Designed branding, marketing collateral, and digital assets across the firm's product portfolio
- Developed UI graphics and motion assets for product launches
- Created a product logo later featured in Med Ad News
